Edwin Ondrick, Jr.  
Vice President  
Poly Plating Incorporated  
2096 Westover Road  
Chicopee, MA 01022-1055

Dear Edwin Ondrick:

I am pleased to inform you the Occupational Safety and Health Administration (OSHA) has renewed participation of Poly Plating Incorporated in the Safety and Health Achievement Recognition Program (SHARP). To achieve this renewal, your company had to meet certain requirements, such as participation in a comprehensive on-site consultation survey, correction of all hazards identified during this review, and operation of an effective safety and health program.

OSHA has removed your company from its general schedule inspection list for the period June 13, 2024, through June 12, 2027. Participation in SHARP does not diminish any rights or responsibilities the Occupational Safety and Health Act provides you or your employees.

Congratulations, and thank you for working with an OSHA-sponsored consultant to help promote the safety and health of workers at Poly Plating Incorporated.

Sincerely,

A handwritten signature in cursive script, reading "Galen Blanton", is positioned above the typed name.
